Footnotes

- ¹ Lamps supplied by others.
- ² Specify voltage.
- ³ Limited availability in 2 ft. luminaire. Consult factory.

General Notes

- Many luminaire components, such as reflectors, refractors, lenses, sockets, lampholders, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur based chemicals, petroleum based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility.

CRGDD Recessed grid troffer

Cleanroom, T5, T5HO, or T8

Standards

- ETL (US/Canada) Wet Location listed
- Suitable for Class 100, 1,000, 10,000, 100,000 environments.
- NSF2 Food Zone/Non-Contact and Splash Zone.

Construction/Finish

- 18-gauge cold rolled steel "hole-free" housing with welded seams. Optional stainless steel or aluminum housing available.
- 18-gauge one-piece cold rolled steel drop down door with safety cables. Optional brushed stainless steel or aluminum door available.
- Captive stainless steel Phillips flat head fasteners are standard.
- Standard baked white polyester powder coat paint finish. Multi-stage pretreatment process. Salt spray 1,000 hours.

Lens

- Standard .125" prismatic acrylic lens with smooth side exposed to facilitate cleaning. Optional lensing shown below.
- Continuous formed channels for positive lens retention.
- Lens and door sealed with closed cell neoprene sponge door and lens gasketing.

Electrical

- Standard Class P, sound rated A electronic ballast. Other ballast options available.

Installation

- Housing to fit 1" or 1-1/2" grid ceilings. Support above plenum by others.
- Flattened 7/8" knockouts in top and ends of housing.

Option

- Agion™ Antimicrobial protection using silver technology inhibits bacterial colonization on metal interior and exterior surfaces. Agion™ antimicrobial FDA recognized and EPA registered, meeting all applicable EPA standards. Only available with standard white finish.

Dimensions

Some luminaires use fluorescent or high intensity discharge (HID) lamps that contain small amounts of mercury. Such lamps are labeled, "Contain Mercury" and/or the symbol "Hg". Lamps that contain mercury must be disposed of in accordance with local requirements. Information regarding lamp recycling and disposal can be found at www.lamprecycle.org
