Footnotes

- ¹ EG, EC, EP modules only available when either 12A or 12W reflectors are chosen.
² 18W has 1100 lumen output.
³ Specify voltage when requesting this option.
⁴ Steel Pendant painted same color as fixture.
⁵ For other housing finishes, consult factory for available colors and codes.

General Notes

- All options factory installed.
- Many luminaire components, such as reflectors, refractors, lenses, sockets, lampholders, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur based chemicals, petroleum based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility.

RV5 Revolution LED industrial decorative luminaire

12" reflector, 18W LED

Application

- The Philips Day-Brite / Philips CFI Revolution industrial decorative features acrylic reflectors and a tooled housing for maximum efficiency with aesthetic appeal. Ideal for educational, retail and commercial applications where uplight is required.

Construction/Finish

- Die cast aluminum ballast housing. Standard finish is Duraplex II Electrostatic Powder coat. Optional colors available.
- 70% Lumen Maintenance after 50,000 hours.
- 1100 Lumen, 4000K, 80 CRI design uses 18W.
- Mercury and lead free design and ROHS compliant electronics.

- Miniature specular reflector provides 55° cutoff, low glare, uniform color and no hot spots.
- Our technology provides a cool beam of light with no Ultra-Violet (UV) or Infrared (IR) which eliminates any heating of the illuminated products as well as elimination of fading due to UV exposure.
- High-Quality LED light is achieved by mixing blue LEDs and using a cutting edge phosphor technology to give you high quality white light and color consistency.
- Clear Acrylic Reflector Model: Injection molded clear Acrylic prismatic reflector, designed to provide maximum efficiency and brightness control, with high uplight component for reduced contrast and improved uniformity.

- White Acrylic Reflector Model: Injection molded microcellular foamed acrylic reflector. Uplight component is reduced while downlight levels are increased providing more downward light.
- Mounting choices include 1/2" NPS pendant stem, die cast aluminum hook with 3' cord, aircraft cable with coiled or straight cord.
- 3 year limited warranty.
