## Features

- Housing (Lamp/Ballast) : Single piece compression molded fiberglass reinforced polyester composite, factory tested to ensure water will not wick or leak through cavity. Separated sealed compartments provide isolation between field wiring, optics and driver. Superior resistance to ultraviolet degradation and corrosion resistant in harsh environments. Trim Ring and Debris Cover supplied standard.
- Electrical: 34W (on high setting) Input voltage range (VAC): 120-277V. Includes 0-10V Analog Class 2 wiring for dimming, capped off to help prevent cross wiring with line voltage wires.
- LED Board: Single COB LED Array
- Controls: Class 2 driver with AOC and 0-10V dimming. Design allows easy-access to integral switch with 5 preset light outputs, see lumen matrix.

Remove lens frame and adjust the slider switch by hand.

- Optical Systems: Fixture pre-installed with medium flood (36°) optical lens. Interchangeable optical lenses clip onto main reflector. Both narrow flood (20°) and wide flood (65°) optical lenses are shipped with each fixture. Components are made of injection molded polycarbonate (PC). Heatsink doubles as an aiming apparatus, providing a range of 30° (15° from center both ways). Aiming can be adjusted after easy removal [8] screws on lens frame.

## Splice Compartment

Supplied with two 3/4" NPT conduit entrances. Connection to driver compartment by way of anti-wicking device. Sealed with gasketed die cast aluminum cover plate. Suitable for through wiring.

## Lens Frame

Heavy duty die cast bronze lens frame is supplied as standard. Fastened to housing with eight captive 1/4-20 stainless steel Allen cap screws.

## Lens

Standard 3/8" tempered flat borosilicate glass. Flat lens will withstand loads up to 200 PSI. Sealed to housing with high temperature injection molded silicone gasket.

## Finish

Housing is black. Lens frame can be painted in standard or custom colors. Powder coat is standard.

## Lamps

Integral LED module

## Options

Optional integral surge protection device provides single phase protection for line/neutral, line/ground, and neutral/ground in accordance with IEEE C62.41 2002C High.

## IP67 Rating

Dust tight and sealed against direct jets of water and against temporary immersion.

## Labels

ETL and CETL listed for wet location, direct burial, and concrete pour.  
5-year limited warranty.

## Landscape line-volt inground bullet luminaire

Component	Feature/Function
1. Lens frame	Secured to housing with 8 captive screws.
2. Molded lens	Exterior 3/8" thick tempered lens.
3. Lens gasket	Molded gasket slips onto lens without tools or RTV.
4. Optical lenses	Three clip on lenses 4a - NFLD, 4b - MFLD, 4c - WFLD
5. Reflector	Designed for COB LEDs, provides UV protection.
6. Switch	Simple customer access for dimming. Slides to 5 different preset light levels.
7. Heatsink	Enables aiming of the optics while transferring heat from COB for better thermal performance.
8. Fixture housing	Separate compartments for field connection, driver and COB reflector assembly.
9. Driver	Class 2 driver with 0-10v dimming. Field replaceable.
10. Driver cover	Driver mounts directly to cover. Handle provided to easily remove from housing.
11. Driver cover gasket	Molded gasket provides seal to driver compartment.
