

MJ3 Series

CHICAGO STEEL TROFFER UNIT

Page 1 of 2

MJ3125LH12W

Features

Illumination: High-output incandescent lamps maximize illumination characteristics through a specially designed reflector and glass lens assembly that provides glare-free light distribution.

Housing: Heavy duty steel cabinet is finished in white baked-on powder paint providing scratch and corrosion resistance. All metal lamp housing and swivel assemblies in neutral cream color to match unit housing. Lamp heads are fully adjustable and feature lockable swivels.

Battery: Maintenance-free, sealed, lead calcium battery has an estimated service life of 5 years, and an operating temperature range of 65°F (19°C) to 85°F (30°C). Nickel cadmium batteries are optional.

Electronics: 120/277 VAC dual voltage input with surge-protected, solid-state circuitry. Fully automatic, temperature compensating, variable rate float charging system is complete with low voltage disconnect, AC lockout, brownout protection, AC indicator lamp and test switch.

Code Compliance

All models are UL 924 listed and meet NFPA 101 Life Safety Code, NEC, OSHA and City of Chicago codes.

Warranty

Three year unit warranty (excludes lamps). One year full plus four year prorated battery warranty (lead calcium). Five year full plus five year prorated battery warranty (nickel cadmium).
