

# SURF Ceiling Series

## White LED Architectural Lighting

Page 1 of 2

### SURFCNBR31KSD2

### SURFCNW31KSD2RT

### Features

**Illumination:** Illumination is provided by two field-replaceable, independently powered white LED modules and a vacuum plated polycarbonate reflector. LED CCT may be ordered as 3,100 K or 6,500 K. The reflector design has been optimized to produce one-foot candle average illumination along a 6'x38' path of egress, with multiple fixtures in emergency mode, when placed at a mounting height of 10' AFF.

**Housing:** Durable, die cast aluminum housing and cover with UV stabilized polycarbonate lens. A bar hanger kit is supplied standard to accommodate recessed ceiling mount applications. The unit may also be surface ceiling mounted directly or with the use of standard 3 1/2" or 4" octagonal or single gang junction box. A knockout is provided on the housing for conduit installations. Optional rectangular trim plate is available (RT option).

### Operating Temperature

**Range:** AC-Only and 2-CKT Models - Damp Location: -40°F (-40°C) to 104°F (40°C)  
Self-Powered Models - Damp Location: 32°F (0°C) to 104°F (40°C)

### Diagnostic Electronics

**(standard):** 120/277 VAC dual voltage input with surge protection is standard on all AC models. On self-powered models, charging system is microprocessor driven with software embedded diagnostic routine and temperature compensation. 120/277 VAC input, surge protection, brownout, AC lockout and low voltage disconnect features are standard.

### Self-Testing Diagnostics

**(optional):** The diagnostic/charging platform with optional self-testing mode automatically runs a one-minute self-test every 30 days and a 30-minute test on the sixth and twelfth month. A one-minute or 90-minute test may be initiated via the push to test switch on the unit or by activating the appropriate test command on the optional IR test device.

### Electrical Specifications:

AC Only Models:

0.203A (120 VAC)

0.087A (277 VAC)

Self-Powered Models:

0.198A (120 VAC)

0.088A (277 VAC)

**Battery:** Maintenance-free sealed nickel metal hydride with 10-year life.

### Code Compliance

UL 924 and UL damp location listed standard. NFPA 101, NEC, BOCA, OSHA and IBC illumination standards. UL 1598 Non-IC.

### Warranty

Three year full electronics warranty. Five year full plus five year prorated NiMH battery warranty.
