

TE Series

SELF-LUMINOUS EXIT

Page 1 of 2

TERU20S

Features

Illumination: Illumination of the exit stencil face is accomplished with borosilicate glass-sealed tubes internally coated with zinc sulfide phosphor and filled with tritium gas. The sign is available with either 10, 15, or 20 year life.

Housing: Attractive ABS flame-retardant housing comes standard with a gray frame. Black or white frames are optional. Easy installation for ceiling, wall, or flush mount applications. Universal mounting bracket is supplied standard. Design incorporates a high-impact acrylic lens, polycarbonate lens option available with field-selectable chevrons. Designed to operate in harsh, corrosive, humid, or explosive environments.

Electronics: No external power source required. No maintenance costs. Illumination level will exceed the .15 foot Lambert minimum for the entire service life. Suitable for California low level applications. Lifetime of 10, 15 or, 20 years.

Code Compliance

UL 924 listed. NFPA 101, NEC (Article 500, Class I & II conditions), BOCA, OSHA and IBC illumination standards. State of California. City of Los Angeles. USNRC. Meets ICBO and SBCCI requirements.

Warranty

10, 15, or 20 year warranty provided, depending on the product useful life version.
