

LOCKING METAL SECURITY COVERS

For use with LYTEmode® Master Stations,
Compli® Scenist® Stations, and Compli® Scenist®
and MultiSet Pro® Time Clocks

Project:

Location/Type:

Description

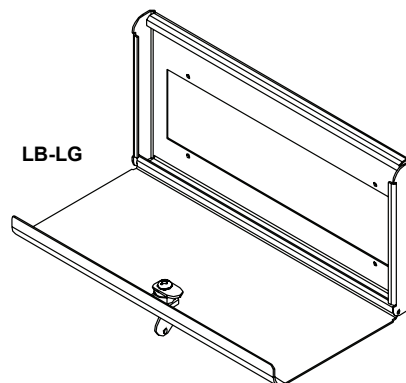

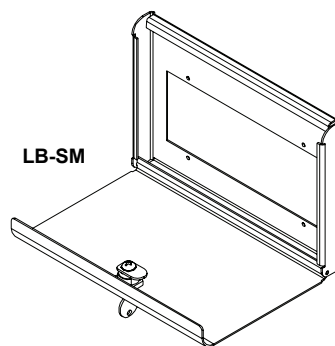

Locking Metal Security Covers are available for use with LYTEmode® Master Stations, Compli® Scenist® Stations, and Compli® Scenist® and MultiSet Pro® Time Clocks. The Security Covers are constructed of thick, durable 16-gauge steel, and finished in a fine textured black powdercoat, and are field-paintable. The covers feature a robust metal lock and a pair of matched keys. The covers have been engineered with a flip-down door, and include a stop to prevent the key from contacting the wall surface when the door is in the down position. The covers are available in small and large sizes.

Features

- Constructed of thick, durable 16-gauge steel for extra security
- Finished in a fine, textured black powdercoat which is field-paintable
- Equipped with a robust metal lock and a pair of matched keys
- Includes a stop to prevent the key from contacting the wall surface when the door is in the down position
