

LIGHTOLIER CONTROLS

COMPLI MULTI-GANG SCREWLESS STRAP FACEPLATES

Project:

Location/Type:

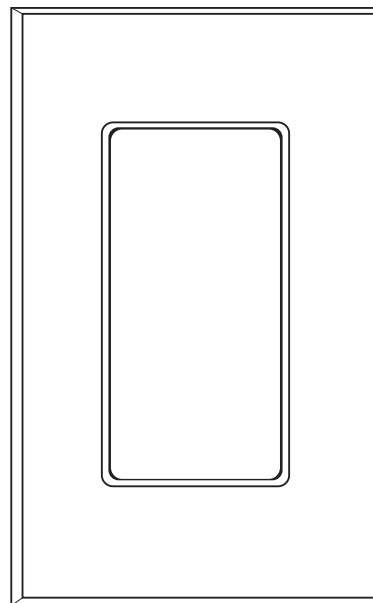

Description

Compli screwless faceplates fit decorator style strap devices. With sleek, beveled edges and screwless snap-on installation, they lend an integrated look to all designer-style electrical wiring devices. The robust ABS plastic faceplate provides durability and the patented backplate ensures proper alignment of all devices in a multi-gang installation. Compli faceplates can accommodate one to seven devices.

Seven colors are available - White, Ivory, Almond, Light Almond, Black, Brown and Gray. For use with products with the following prefixes: A, AID, AP, BM6, BM8, CSR, CC, I2S, ID, ILS, IS, MSP, OS, RS, WDC, ZP. Custom engraving on Compli faceplates is also available.

Features

- Sleek beveled edges.
- Backplate ensures proper alignment of all devices in a multi-gang installation.
- Snap-on application for most decorator-style, electrical wiring devices, including switches, outlets and Lightolier Controls strap dimmers.
- Accommodates up to seven devices.
- Seven colors available.

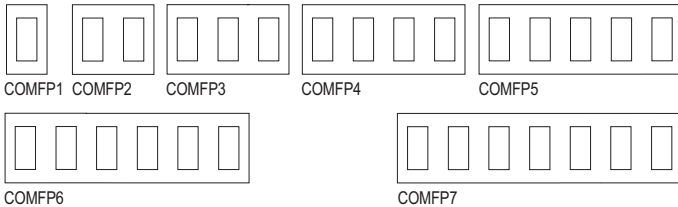

Ordering Guide

To order Compli Faceplates:

Match the number of dimmers/devices to the number of openings on the faceplate.

NOTE: When ganging 1000W strap dimmers, inside fins must be removed. Derating is required.
