#### Description

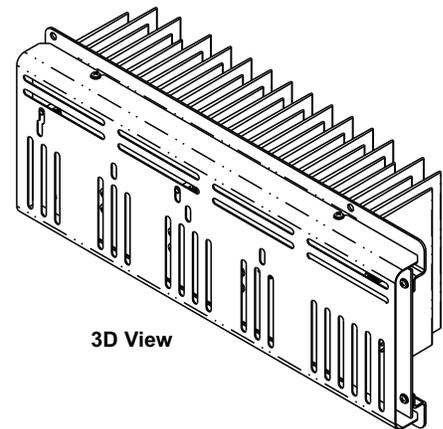

Optio OPT42000FAM / OPT42000FAM15 Dimmer Modules contain four high-quality 0-10VDC dimmers. Each dimmer employs solid-state Silicon Controlled Rectifier (SCR) devices which are rated at no less than double the dimmer's rated capacity. They are c.U.L. recognized and rated for operation at 120VAC, with a capacity of 2000VA (OPT42000FAM) and 1800VA (OPT42000FAM15) each. The module is ruggedly designed, fully enclosed module. Modules are easily installed into an Optio Lighting Control Panel, and may be easily interchanged with other Optio modules.

#### Features

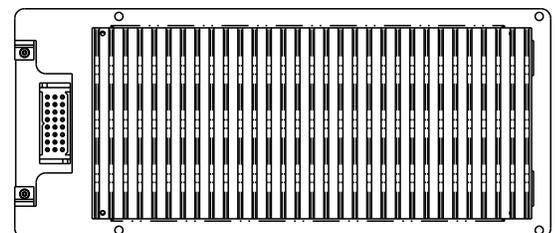

- Four Circuits rated at 2000VA (OPT42000FAM) and 1800VA (OPT42000FAM15) each
- Designed to dim Advance Mark 7, Osram Quicktronic Powersense, LED, and other 0-10VDC dimming ballasts
- Local 'Focus' button allows manual operation of dimmer circuit
- Dual-color LED indicators provide status information
- Modular construction with plug-in capability
- Mounts into any Optio 120VAC Lighting Control Panel

## Specifications

The Optio OPT42000FAM / OPT42000FAM15 Dual Dimmer Module shall contain four solid-state dimmers rated for 2000VA (OPT42000FAM) and 1800VA (OPT42000FAM15) each. The dimmers shall be UL and cUL recognized, and approved to control Advance Mark 7, Osram Quicktronic Powersense, LED, and other 0-10VDC dimming ballasts. Dimmer modules shall be constructed using two silicon controlled rectifiers placed in a back-to-back configuration for each circuit, and shall be capable of handling current rated for twice the dimmer's load rating.

The Optio OPT42000FAM / OPT42000FAM15 Dimmer Module shall provide a locally mounted 'Focus' button for each dimmer. Tapping the Focus button shall turn the dimmer to full on, tapping the Focus button a second time shall turn the dimmer to off. Pushing and holding the Focus button will ramp the dimmer output up, and shall stop ramping and hold position when the Focus button is released. The Dimmer Module shall contain a dual-color LED display to indicate dimmer status and error conditions.

The Optio OPT42000FAM / OPT42000FAM15 Dimmer Module shall be constructed with a robust anodized aluminum heatsink, and painted metal cover. Optio Dimmer Modules shall be capable of installation into any slot in any Optio Lighting Control Panel of the appropriate operating voltage.
