Specifications

HOUSING Each APL housing shall be formed from heavy gauge aluminum and internally welded.

LENS FRAME The extruded, mitered clear anodized aluminum lens frame shall be formed using four (4) corner keys and secured to the housing with two (2) stainless steel hinge pins.

LENS AND GASKETING The flat, thermal and shock resistant glass shall be silicone sealed in the extruded "U" channel lens frame. The lens frame shall be gasketed to the housing's internal reinforcement ring with

silicone impregnated Dacron gasketing.

REFLECTOR The APL luminaire shall be available with two IES distribution reflector systems: 1) Type 4Hforward throw distribution, horizontal lamp; 2) Type 4HP-forward throw distribution, horizontal

lamp with an internal perimeter cutoff blade. All photometric data shall be certified by an

independent testing facility.

BALLAST All CWA ballasts (+10% to -10% lamp power regulation) shall be tray mounted and supplied

with quick-disconnects. Ballasts are rated for -20 degree $\mbox{\ensuremath{\sf F}}$ operation.

FINISH Polyester powder coat, electrostatically applied, which is preceded by a five step pre-treatment

process including an iron phosphate priming stage for superior coating adhesion. This process meets or exceeds all ASTM testing requirements, including those for 1,000 - hour salt spray

endurance testing.

LISTINGS The fixture shall be ETL and cETL Listed, per UL 1598, "suitable for wet locations."

WARRANTY Mechanical, finish and electrical shall be covered by a limited 1-year warranty. See terms and conditions for details.

Hg Some luminaires use fluorescent or high intensity discharge (HID) lamps that contain small amounts of mercury. Such lamps are labeled 'Contain Mercury' and/or with the symbol 'Hg'. Lamps that contain mercury must be disposed of in accordance with local requirements. Information regarding lamp recycle and disposal can be found at www.lamprecycle.org.
