

Type: _____ Job: _____

Catalog Number: _____

Features

- Rugged specification grade, snap action manual and keyed switches.
- Stainless steel faceplates with silkscreened legends allow simple operation.
- Integral Start-At-High feature in selected models automatically operates the system at full power at turn on, or after power interruptions.
- Multi-location control available.
- Direct line voltage connections.
- For 120 or 277 VAC Control voltages.
- Switches are 20 Amp rated.
- UL Listed components.
- Standard electrical gang boxes supplied.
- Typically used in conjunction with BL-MHS-120/277 'Start-At-High' Timing Circuit Panel.

For Multiple Zones, combine switch stations.

For enhanced design flexibility, specification and installation simplicity of Multiple Zone systems, the BOB Modular Bi-Level Zone Control Panel may be a more suitable alternative.

BL-KS Series

Bi-Level Keyed
Spec Grade Switch Stations

BL-MS Series

Bi-Level Manual
Spec Grade Switch Stations

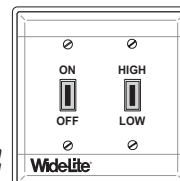

applications

The BL-MS and BL-KS Series of Specification Grade Switch Stations provide simple to operate, rugged control for small Bi-Level systems that do not require more sophisticated control functions.

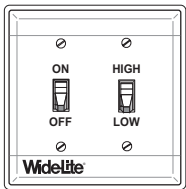

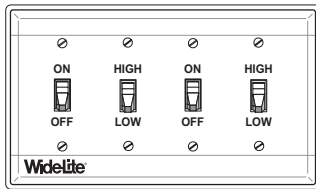

Typical applications (where only manual control is needed) may include certain Gymnasiums, Institutional Areas, Recreational Facilities and Industrial Areas.
